

PORTUGAL PLATFORM

Website Corrections & Content Update Report

Consolidated instructions for the developer

Prepared by

Vanissa Leitao

Date

17 July 2026

Scope

Portuguese website localisation, imagery and consistency

Executive summary

This document consolidates the corrections identified during the review of the Portuguese website. It replaces earlier fragmented feedback and should be used as the single implementation checklist.

GLOBAL CONSISTENCY RULES

- Use the approved Portugal logo consistently in the header and footer.
- All public-facing content must be in European Portuguese. Remove remaining English fragments.
- Use the official Portuguese term Peritos Qualificados, not “Peritos Certificados”.
- The platform is national. Avoid presenting it as a Lisbon-only service.

IMPLEMENTATION CONTROLS

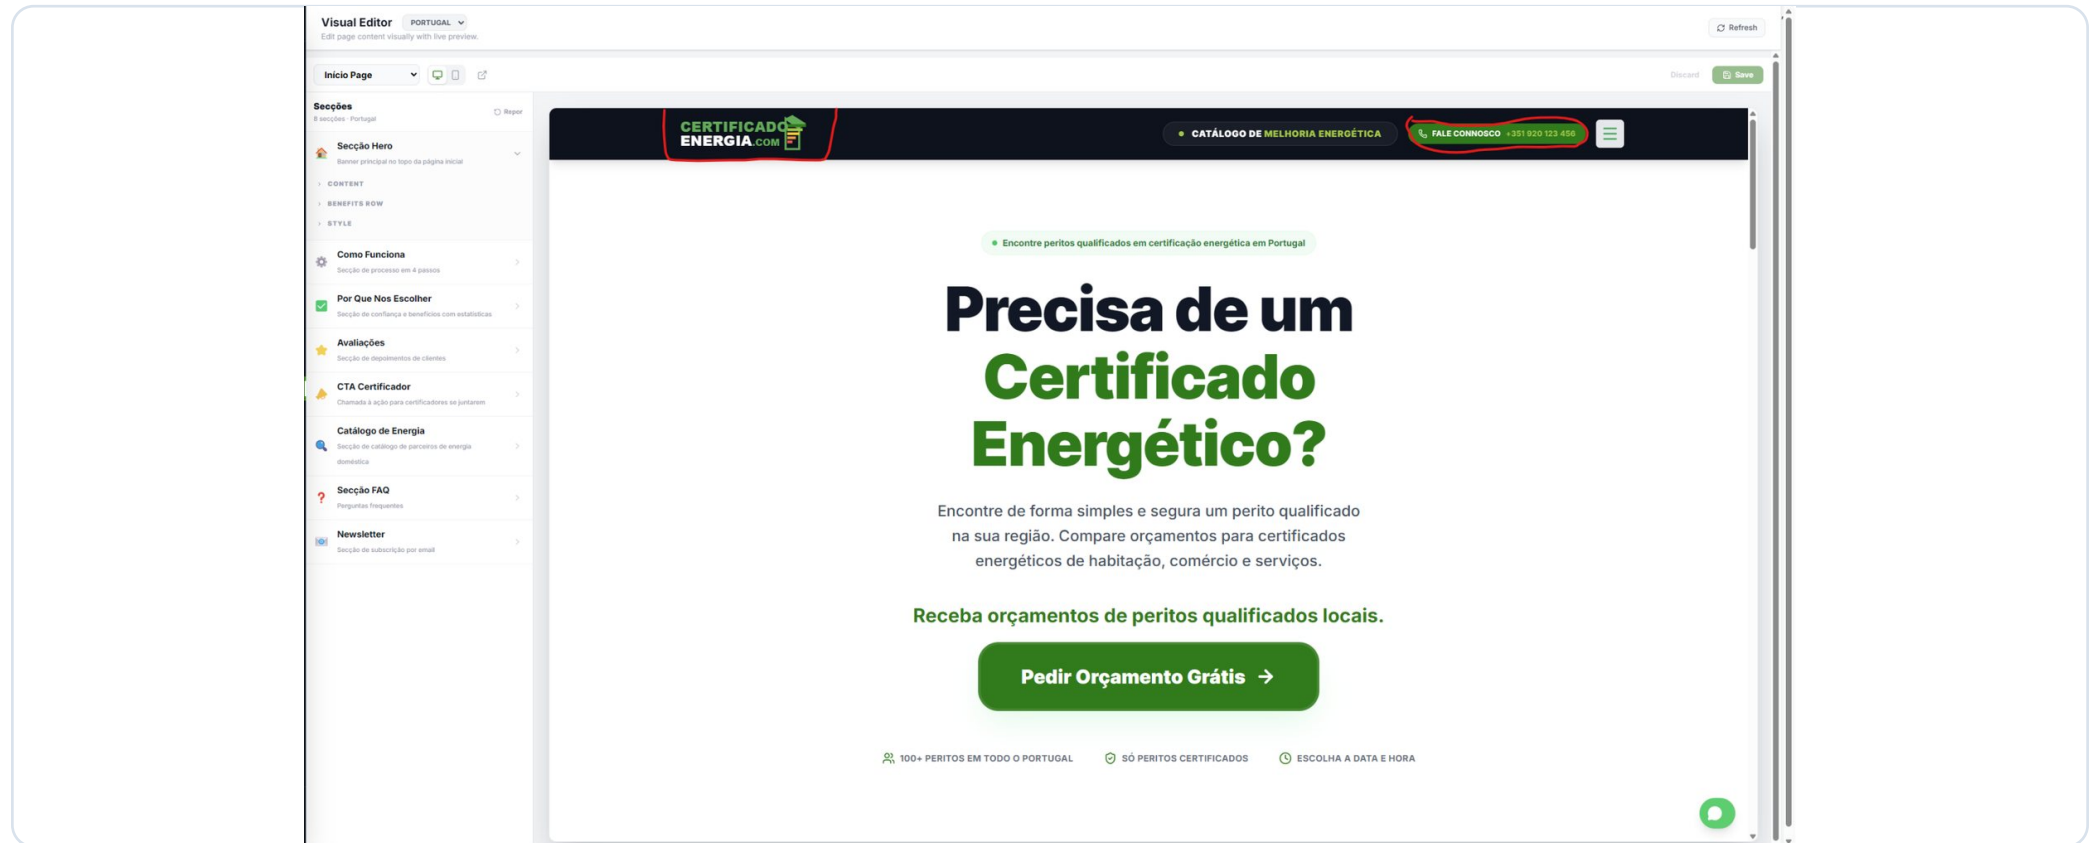

- Confirm the correct Portuguese telephone number with Sean before publishing it.
- Use Portugal-wide geography, including mainland Portugal, Madeira and the Azores.
- Check desktop, tablet and mobile layouts after each change.
- Do not publish unconfirmed operational or payment claims in the FAQ.

CHANGE INDEX

01	Header Logo and Portugal phone number	02	Homepage image Replace generic solar image
03	Footer Logo and LinkedIn link	04	Location page Portugal-wide copy and regions
05	CTA Translate final call to action	06	FAQ Publish verified general FAQs
07	Catalogue hero Use approved Portugal network image	08	Newsletter Translate subscription block

CHANGE 1

Header logo and Portuguese telephone number

DEVELOPER INSTRUCTION

Required changes

1. Replace the current header logo with the approved official Portugal logo shown below.
2. The telephone number inside the “Fale connosco” button must be confirmed directly with Sean before publication.
3. Do not reuse the temporary number currently displayed.
4. Keep the button label in Portuguese: Fale connosco.

CHANGE 2

Homepage: replace the generic solar-panel image

CURRENT IMAGE

APPROVED REPLACEMENT

RATIONALE AND IMPLEMENTATION

Replace the current generic solar-panel image with the approved Portugal network image. The replacement communicates the actual platform purpose more clearly: national coverage, regional search, access to professionals and a trusted network. The current image may incorrectly suggest that the platform is mainly focused on solar-panel installation.

Responsive requirement: keep the integrated labels legible on desktop, tablet and mobile. Avoid cropping the map, the Madeira/Azores references or the callout panel.

CHANGE 3

Footer: approved logo and Portuguese LinkedIn page

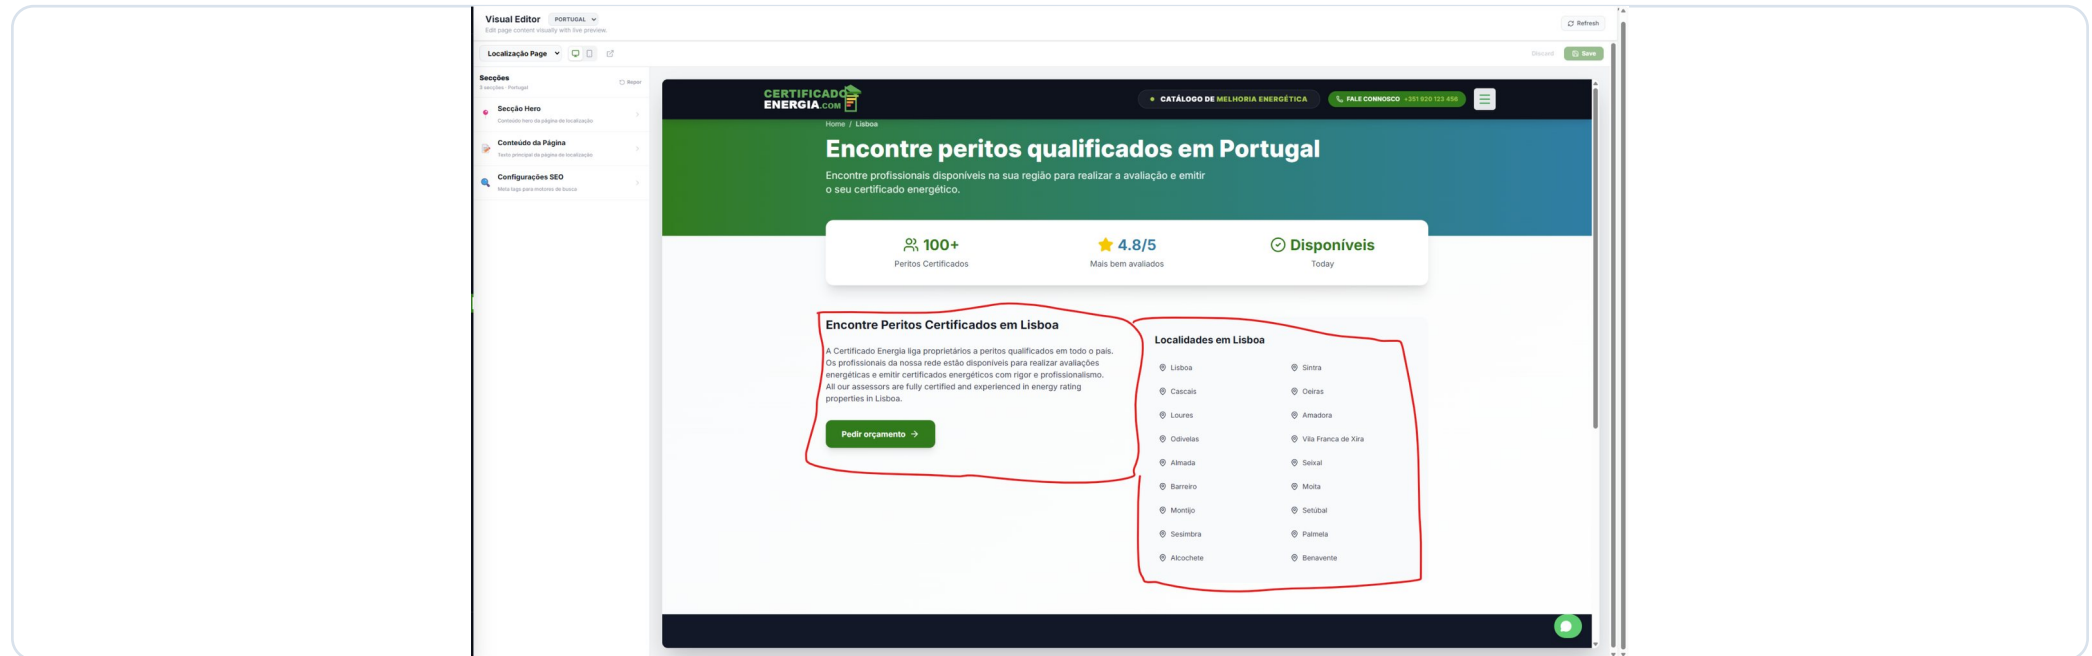

DEVELOPER INSTRUCTION

Required changes

1. Replace the current footer logo with the approved Portugal logo.
2. Remove the duplicated "Certificado Energia" text appearing beside the logo.
3. Link the LinkedIn icon to the official Portuguese company page:
<https://www.linkedin.com/company/certificados-energ%C3%A9ticos-eu-powered-by-the-berman-portugal/>
4. Confirm that the link opens in a new tab and works on mobile.

CHANGE 4

Location page: national coverage, not Lisbon only

LEFT CONTENT

Replace the left-hand content with:

Title: Encontre Peritos Qualificados em Portugal

Body: A Certificado Energia liga proprietários a peritos qualificados em todo o país. Os profissionais da nossa rede estão disponíveis para realizar avaliações energéticas e emitir certificados energéticos com rigor e profissionalismo.

Remove the remaining English sentence completely.

RIGHT CONTENT AND BREADCRUMB

Replace the right-hand section with:

Heading: Regiões de Portugal

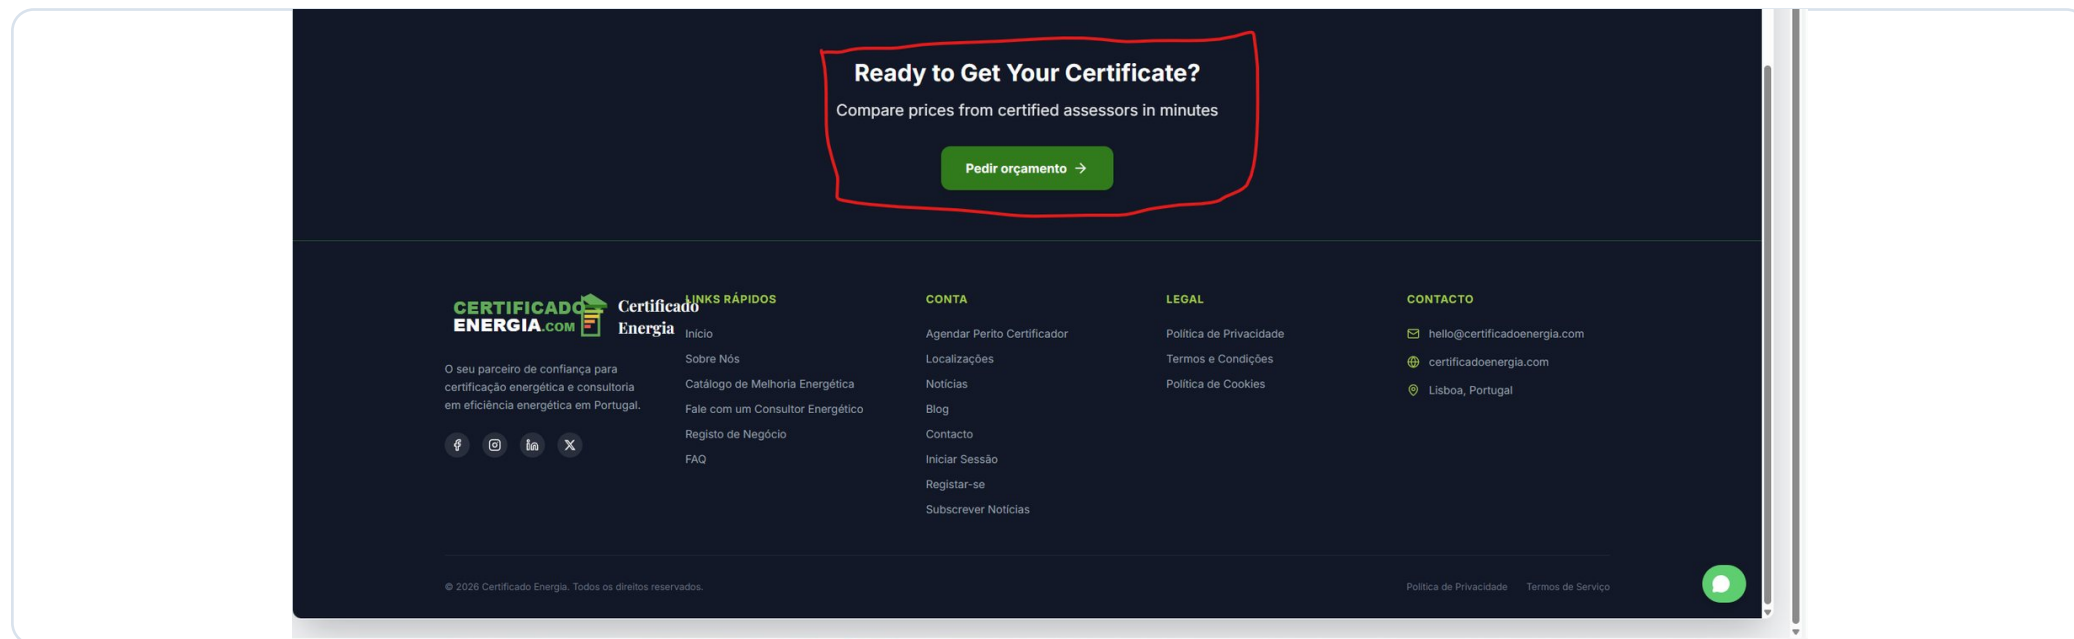

Suggested regions: Norte, Centro, Lisboa e Vale do Tejo, Alentejo, Algarve, Madeira and Açores.

Breadcrumb: Início / Portugal

ALSO CORRECT: "100+ Peritos Certificados" -> "100+ Peritos Qualificados" and "Today" -> "Hoje".

CHANGE 5

Final CTA: translate the remaining English copy

REPLACEMENT COPY

Translate the full call-to-action block into European Portuguese.

Title: Precisa do seu certificado energético?

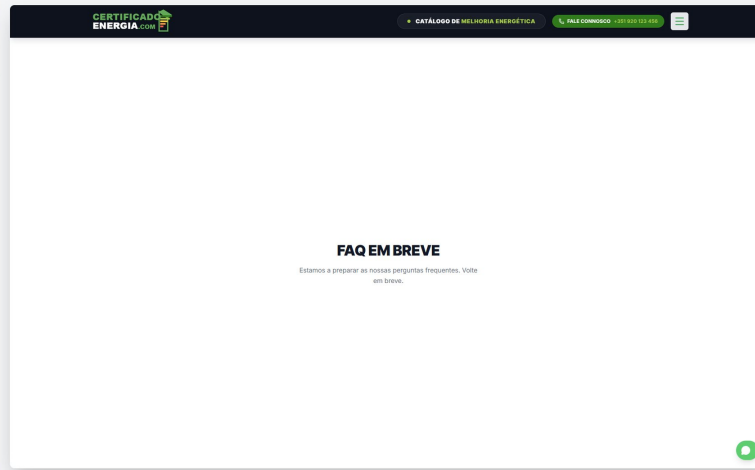

Description: Compare orçamentos de peritos qualificados em poucos minutos.

Button: Pedir orçamento

Use peritos qualificados, which is the correct terminology in Portugal. Do not use a literal translation of “certified assessors”.

CHANGE 6

FAQ page: publish verified general information

IMPLEMENTATION NOTE

The FAQ page should not remain empty. The general questions below can be published now because they are based on official SCE/ADENE information. Operational questions about payments, cancellation, the EUR 20 platform fee, lead distribution and booking rules must remain unpublished until Sean confirms the final process.

O que é um certificado energético?

O certificado energético é um documento que apresenta o desempenho energético de um imóvel, a respetiva classe energética e possíveis medidas de melhoria para reduzir o consumo e aumentar o conforto.

Quando é necessário um certificado energético?

É obrigatório nas situações previstas pela legislação, incluindo edifícios novos, grandes renovações e processos de venda ou arrendamento de imóveis.

Quem pode emitir um certificado energético?

A emissão deve ser realizada por um Perito Qualificado, habilitado e registado no Sistema de Certificação Energética dos Edifícios.

Quanto custa um certificado energético?

O preço inclui os honorários do Perito Qualificado e o valor de registo no Portal SCE. Os honorários podem variar consoante o tipo, a dimensão e a complexidade do imóvel.

CHANGE 6

FAQ page: remaining verified copy and sources

Qual é a validade do certificado energético?

Na maioria dos casos, o certificado energético é válido durante 10 anos. Existem prazos diferentes para alguns tipos de edifícios e situações específicas.

Que informação consta do certificado?

O documento apresenta a classe energética do imóvel, o desempenho dos seus principais componentes e recomendações de melhoria destinadas a reduzir o consumo energético e aumentar o conforto.

Como posso obter um certificado energético?

Deve escolher um Perito Qualificado, reunir a documentação do imóvel, permitir a visita técnica e acompanhar o processo até à emissão do certificado.

Posso pedir e comparar vários orçamentos?

Através da Certificado Energia, poderá receber propostas de Peritos Qualificados disponíveis na sua região e comparar as opções antes de escolher o profissional.

OPERATIONAL FAQs PENDING CONFIRMATION

Do not publish until Sean confirms:

How the customer pays; whether the EUR 20 deposit is refundable; what happens after cancellation; how many assessors receive each request; the response deadline; when customer contact details are shared; who provides support; and how the assessor verification process works.

<https://www.sce.pt/perguntas-frequentes/>

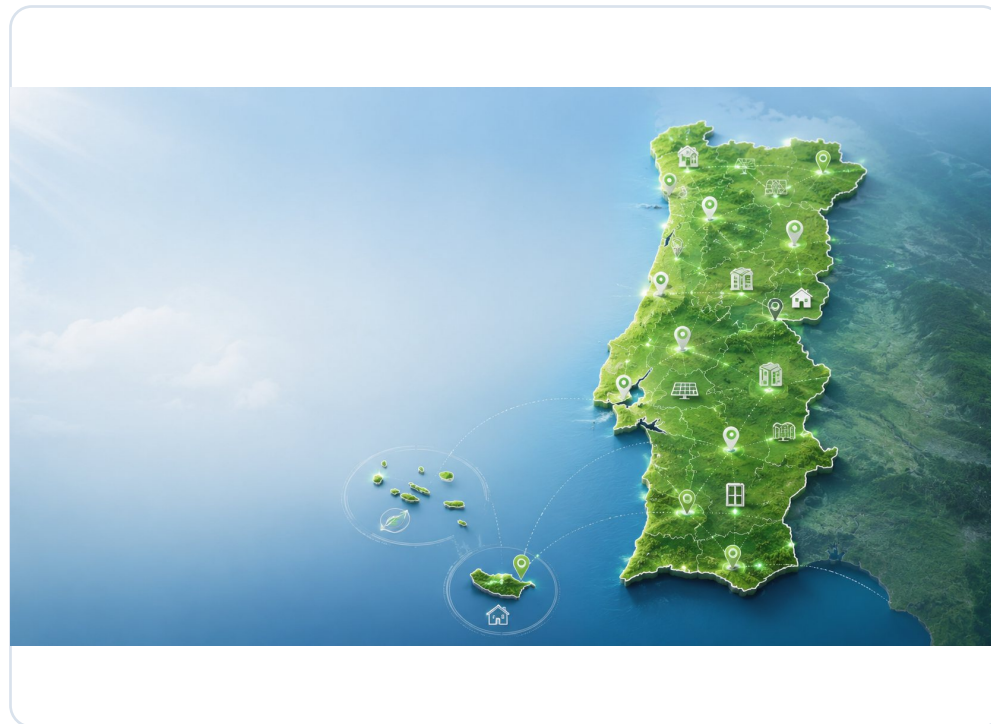

CHANGE 7

Catalogue hero: use the approved Portugal network image

CURRENT BACKGROUND

APPROVED BACKGROUND

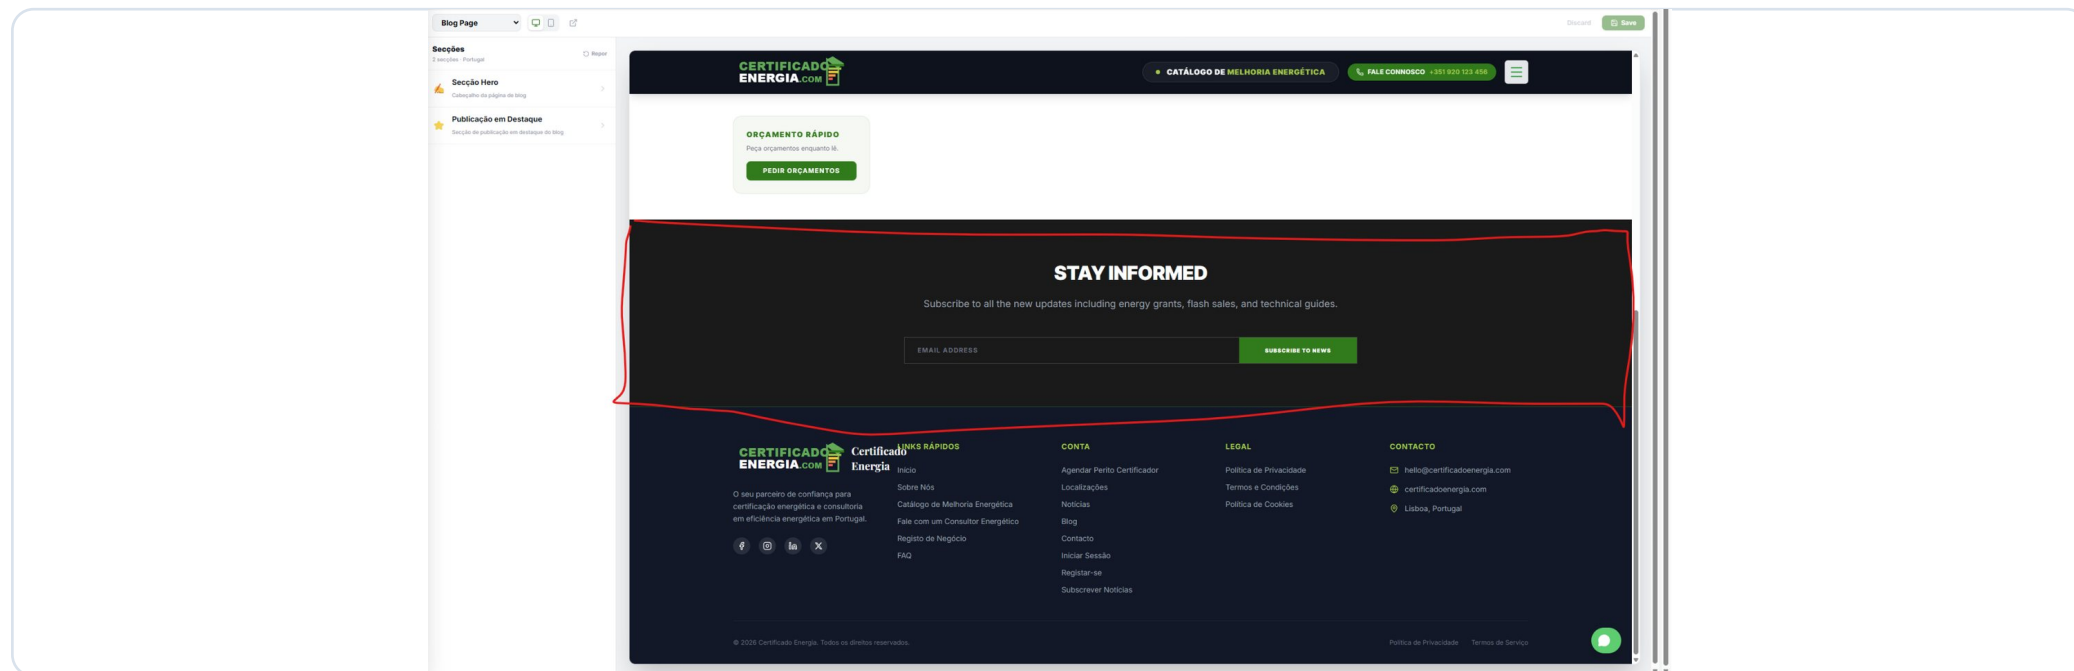

APPROVED VISUAL DIRECTION

Replace the current solar-panel background with the approved Portugal-wide energy network image. It communicates national coverage, regional search, a variety of energy-efficiency services and professionals across mainland Portugal, Madeira and the Azores.

The image intentionally keeps visual space on the left for the catalogue title, filters and search interface. Apply an overlay only if needed for text contrast, and do not crop Portugal or the islands.

CHANGE 8

Blog newsletter: translate the subscription block

REPLACEMENT COPY

Replace all remaining English text in the newsletter block.

Title: Fique a par das novidades

Description: Subscreva para receber atualizações sobre apoios à eficiência energética, campanhas e guias técnicos.

Input placeholder: Endereço de e-mail

Button: Subscriver

Use sentence case in the interface unless the existing design system intentionally uses uppercase labels.

Final developer checklist

CONTENT AND BRAND

- Replace the logo in the header and footer with the approved Portugal logo.
- Confirm the Portuguese telephone number with Sean before publishing.
- Connect the footer LinkedIn icon to the official Portuguese company page.
- Replace both generic solar-panel visuals with the approved Portugal network images.
- Convert the location page from Lisbon-only content to Portugal-wide coverage.

QA AND LOCALISATION

- Translate the final CTA and blog newsletter block into European Portuguese.
- Publish the verified general FAQ content and keep operational questions pending.
- Replace every public use of “Peritos Certificados” with “Peritos Qualificados”.
- Remove all remaining English fragments from the Portuguese version.
- Test every page on desktop, tablet and mobile before marking the work complete.

Completion request

Please return the updated website for a final review after all eight changes have been implemented. A change should only be marked as complete after the Portuguese desktop and mobile views have been checked and all links have been tested.
