

1. Top section - remove the remaining Irish / English copy

- 1 Keep the existing Portuguese headings "DICAS E GUIAS" and "ARTIGOS RECENTES".
- 2 Delete the English paragraph beginning with "Stay informed with expert insights on BER Certificates...". It refers to BER and Ireland and must not appear on the Portugal site.
- 3 Use this Portuguese description instead: "Guias, dicas e informação útil sobre certificação energética, eficiência energética, legislação, apoios e melhorias para tornar a sua casa mais eficiente."
- 4 Across the Portugal Blog page, replace any remaining references to "BER" or "Ireland" with Portugal-appropriate wording. Use "Certificado Energético" / "Certificado Energia" where applicable.

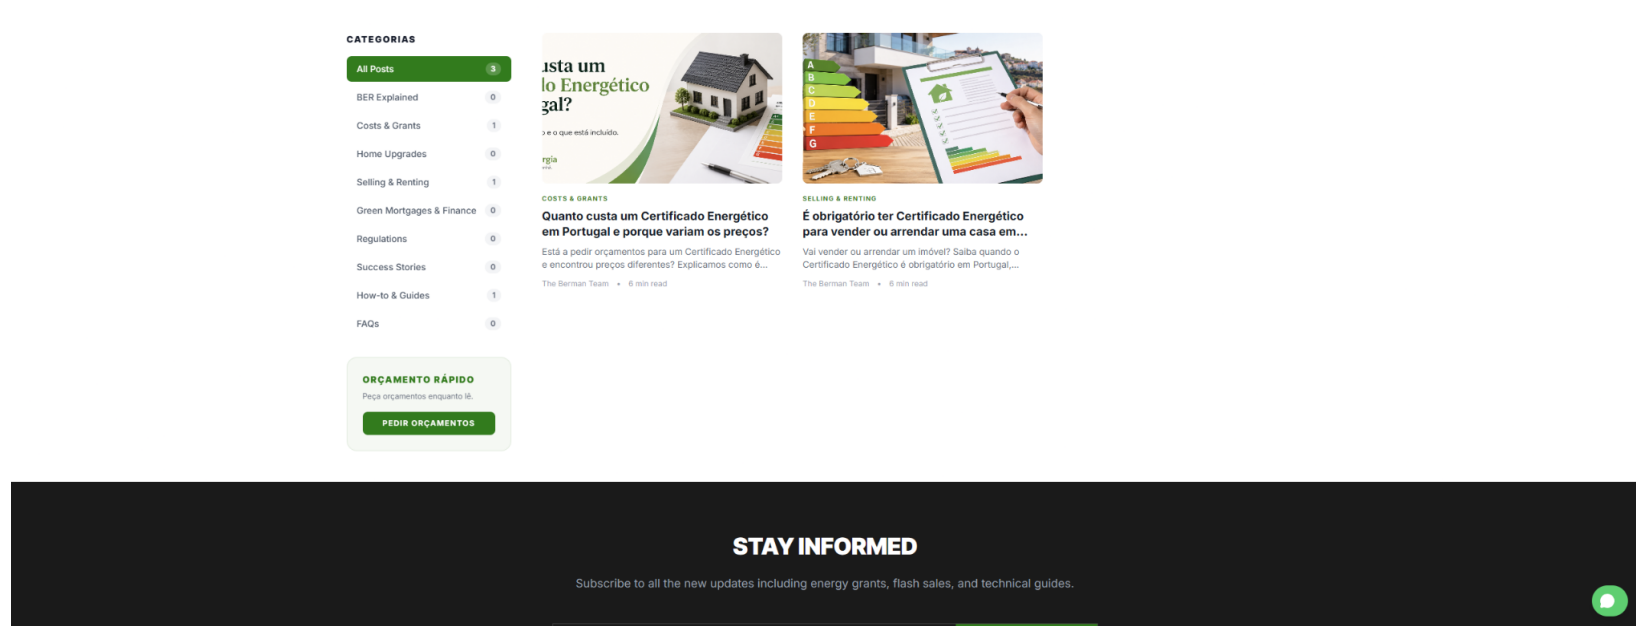

2. Translate / localise the category menu

IMPORTANT

The category label displayed above each article card must use the same Portuguese category name as the menu.

3. Article cards and footer

- 1 Replace "The Berman Team" with "Certificado Energia" on all Portugal blog article cards.
- 2 Replace "6 min read" and any equivalent English read-time label with Portuguese, e.g. "6 min de leitura".
- 3 Replace "STAY INFORMED" with "MANTENHA-SE INFORMADO".
- 4 Replace the English subscription sentence with: "Subscreva para receber novidades sobre certificação energética, eficiência energética, apoios, legislação e guias técnicos."
- 5 After the update, check the complete Portugal Blog page for any remaining English text, BER references, Ireland references or "The Berman Team" labels.

EXPECTED RESULT

The Portugal Blog page should be fully localised in Portuguese and contain no Ireland-specific BER terminology.
